

**USTAR Summer Core Classes  
2010  
Information Sheet for Parents**

**Purpose:** Summer USTAR classes are designed to give students an opportunity to accelerate their progression in mathematics and science classes. The classes are offered to students for an entire year of course credit and may not be used for partial credit or make-up work. Students choosing to take a Summer Core USTAR class should be prepared for intensive study in the topic. Students who successfully complete the course will receive a full credit for the core class and will be prepared to take the subsequent classes. Upon completion of the class, all students will take the appropriate CRT. Results of the CRT will be reported to the school in which the student will enter in the Fall of 2010.

**Student:** Students are responsible for their own transportation. Students are required to be on time and to attend all classes. All classes will receive weekly progress reports and one final grade (no quarter grades) for the class. This grade will appear on the student's official transcript. Students that accumulate MORE than 12 hours of tardies/absences will receive a NC (No Credit) with a doctor's note or an F (Fail) if there is no doctor's note.
